

# 2022 BUTEO™ start Assurance Program

**BUTEO™ start and Prosper® EverGol® seed treatments protect your hybrid canola against the most damaging diseases and insects including flea beetles, seed rot, seedling blight and damping off.**

**If you observe flea beetle feeding damage of  $\geq 25\%$  on your hybrid canola treated with BUTEO start and Prosper EverGol at or prior to the four-leaf stage, please contact us by one of the following methods to determine if you are eligible for up to a 100% rebate\* on Decis® insecticide:**

- Visit [BUTEOstartAssurance.ca](https://BUTEOstartAssurance.ca)
- Call 1-844-250-9362

\*Conditions apply. Visit [cropscience.bayer.ca](https://cropscience.bayer.ca) for more details.

**You must sign up for this program on or before 3 days after the Decis application.**

# 2022 BUTEO™ start Assurance Program

## 2022 BUTEO start Assurance Program Grower Agreement

### Program Products

- For the 2022 growing season, the Grower shall have purchased and planted certified hybrid canola seed treated with Bayer CropScience Inc. ("Bayer") Prosper® EverGol® + BUTEO™ start seed treatments (collectively "Treated Seed") on all of the acres for which a claim under this Program is being made (the "Qualifying Acres").

### Program Requirements

- The Grower certifies that the Grower meets the following Program requirements (the "Program Requirements"):
  - The Grower has signed up for this Program on or before the earlier of 3 days after the Grower's Decis® application on the Qualified Acres, or June 30, 2022;
  - Purchases of Treated Seed were made by the Grower from between September 1, 2021 and June 30, 2022;
  - The Grower has satisfied all grower licensing requirements of all applicable seed companies in relation to the purchase and use of Treated Seed;
  - The Qualifying Acres were not planted with canola in the prior growing season;
  - The Grower followed the Canola Council of Canada recommended practices for optimal canola stand establishment on the Qualifying Acres;
  - The Grower observed flea beetle feeding damage on the Qualifying Acres at or prior to the four-leaf stage of development at levels at or in excess of 25% on the canola plants;
  - The Grower is making a claim under this Program only for canola on the Qualifying Acres that have not exceeded the four-leaf stage of development;
  - The Qualifying Acres exceed 40 acres;
  - The Grower shall spray a Bayer Decis® insecticide application ("Decis") on the Qualifying Acres in 2022 according to the requirements on the Decis label and agrees that for payment calculation, Decis rate is 40 acres/1.2 L jug for flea beetles, and planted canola seed shall be deemed to be 10 acres/per 22.7 kg bag or bag equivalent;
  - The Grower agrees to all other terms and conditions of the Program.
