

# HATES WEEDS AS MUCH AS YOU DO

# LUXXUR™

Thiencarbazone-methyl

Tribenuron-methyl

WHEAT HERBICIDE

GRASS AND PERENNIAL CONTROL

GROUP 2

Luxxur™ is an innovative herbicide that offers control of your toughest grass and broadleaf perennials. This one-of-a-kind combination not only knocks out wild oats, but also takes care of problematic weeds like dandelions, Canada thistle and narrow-leaved hawk's beard.

Next year, tackle your toughest weeds and ensure a clean field with the latest offering from Bayer.

## THE LUXXUR ADVANTAGE

- Exceptional control of grass weeds, including wild oats
- First-class perennial control, including dandelion and Canada thistle
- Outstanding control of narrow-leaved hawk's beard
- Flexibility to rotate back to sensitive pulse crops

## LUXXUR FOR CONTROL OF THE TOUGHEST WEEDS

### SEE FOR YOURSELF.

Source: 2015-2016 Bayer internal agronomic development trials. Canada thistle n=14, dandelion n=9. Your results may vary according to agronomic, environmental and pest pressure variables.

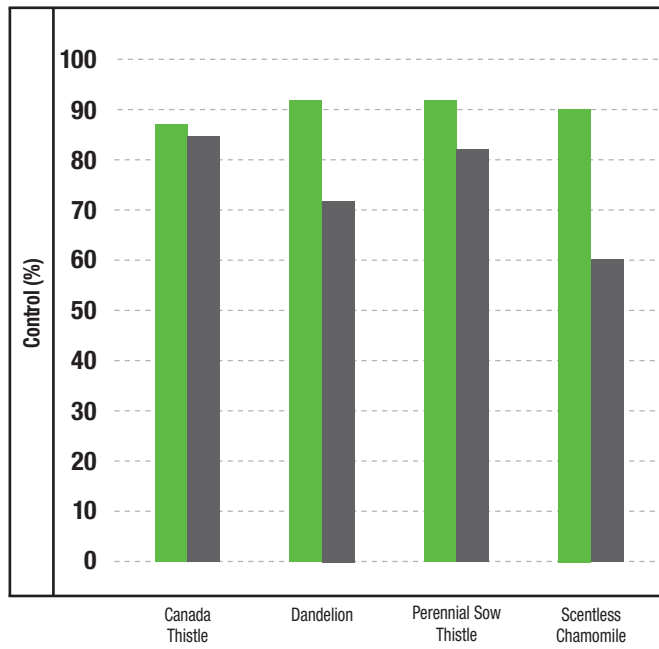

## WILD OATS CONTROL SUMMARY

Source: 2015–2016 Bayer Agronomic Development trials. Wild oats n = 14.  
Your results may vary according to agronomic, environmental and pest pressure variables.

## PERENNIAL WEED CONTROL SUMMARY

■ Luxxur + AMS ■ Curtail® M

Source: 2015–2016 Bayer Agronomic Development trials. Canada thistle n = 14, dandelion n = 9, narrow-leaved hawk's beard n = 3, scentless chamomile n = 3.  
Your results may vary according to agronomic, environmental and pest pressure variables.

## HOW TO IMPROVE CONTROL OF TOUGH WEEDS

	LUXXUR + AMS
BARNYARD GRASS	
CANARY SEED	
GREEN FOXTAIL	
JAPANESE BROME (spring germinated)	
JAPANESE BROME (overwintered)	
PERSIAN DARNEL	
WILD OATS	
YELLOW FOXTAIL	
CANADA THISTLE <sup>1,2</sup>	
CLEAVERS (1–6 whorls)	
COW COCKLE	
DANDELION	
HEMP-NETTLE	
LADY'S-THUMB/SMARTWEED	
LAMB'S-QUARTERS <sup>1</sup>	
NARROW-LEAVED HAWK'S BEARD	
PERENNIAL SOW THISTLE <sup>1,2</sup>	
REDROOT PIGWEED	
ROUND-LEAVED MALLOW	
RUSSIAN THISTLE	
SCENTLESS CHAMOMILE (spring seedlings)	
SHEPHERD'S-PURSE	
STINKWEED	
VOLUNTEER CANOLA	
WILD BUCKWHEAT	
WILD MUSTARD	

## WEED CONTROL

CONTROL	SUPPRESSION
---------	-------------

<sup>1</sup> For control of Canada thistle, perennial sow thistle and lamb's- quarters, the addition of an additive is required as follows:

- Spring and winter wheat:** add ammonium sulphate at 500 g/ha (99%) or 1 L/ha (49% solution) or 1.25 L/ha (40% solution). If using an ammonium sulphate product with a different concentration, adjust the rate accordingly.
- Durum wheat:** add a non-ionic surfactant (Agral 90, AgSurf or Surf 92) at 0.25%.

<sup>2</sup> Season long control, with some regrowth in the fall.
