

YOUR WILD OAT PREDATOR

Fenoxaprop-P-ethyl Group 1	HERBICIDE	
	Powerful grassy weed control	
Targeted Wild Oat Control		

Puma® Advance isn't just tough on wild oats, it's also the #1 performing herbicide on barnyard grass, green foxtail, and yellow foxtail, making it the preferred choice of growers who want dependable grassy weed control in their wheat and barley. The enhanced formulation offers superior crop safety and an affordable solution that delivers an excellent return on investment.

THE PUMA ADVANCE ADVANTAGE

- Powerful control of wild oats, barnyard grass, green and yellow foxtail
- Wide window of application (1 to 6 leaves on main stem plus 3 tillers)
- No re-cropping restrictions
- Excellent tank-mix partner with Infinity® and over 25 other broadleaf herbicides
- The only advanced fenoxaprop formulation for increased wild oat control and crop safety, especially in barley
- Move safely from wheat to barley without having to clean out your sprayer
- Available in BigBoys bulk packaging (300 acre and 1,000 acre totes) for added convenience
- Registered for both ground and aerial application
