Broadleaf Control

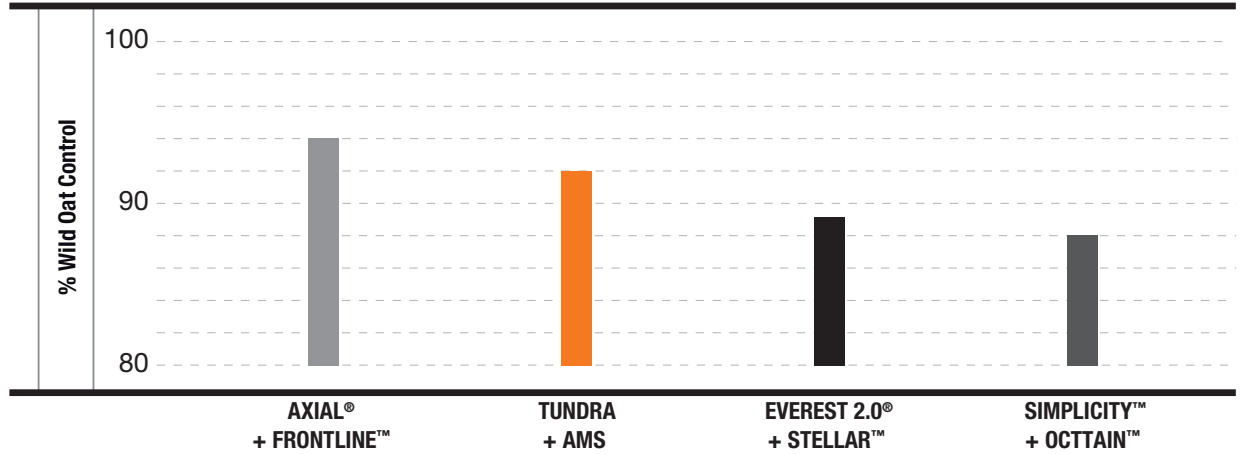

No Tank Mixing

Tundra® herbicide offers wheat and barley growers the best of both worlds, powerful weed control and maximum convenience. With no tank mixing required, Tundra is the complete solution for your toughest broadleaf and grassy weed problems, including wild oats and Group 2-resistant broadleaf weeds. Its easy-to-use formulation provides exceptional crop safety and a wide window of application, all in one jug.

THE TUNDRA ADVANTAGE

- Strong grass and broadleaf weed control, including Group 2-resistant broadleaf weeds like kochia, cleavers and chickweed
- Contains three different modes of action (Groups 27, 6 and 1) for sound broadleaf resistance management and superior efficacy
- Pre-mixed formulation allows for no fussing over tank-mix orders, calculations and mix ratios
- Provides quick and reliable performance
- Allows you to move freely and safely from wheat to barley without stopping
- Registered for both ground and aerial application
