WEED CONTROL	Control	Suppression	Not Labelled

Ratings are based on Bayer research trials and experience, and demonstrate average control levels when evaluating over a wide range of environments and weed pressures. Ratings adhere to the label. Consult your Bayer representative or call 1 888-283-6847 on any unlabelled weed for weed control options.

¹AMS for use on spring and fall wheat only. Durum wheat add a non-ionic surfactant

²These specific weed ratings (perennial) are based on Bayer internal trials and adjusted to reflect equivalent control ratings to all other products listed

³Season long control, with some regrowth in the fall

*Spring germinated seedlings up to 10 cm in height and prior to bolting

⁴Olympus System = Olympus + Roundup pre-seed followed by an in-crop application of Varro or Velocity m3.
